

FIX-RESTAURA

VERY EFFICIENT cleaner of dirt and mould accumulated in the coping tiles of swimming-pools during the winter period.

what can I expect of FIX-RESTAURA?

- ◆ FIX-RESTAURA has a "bathroom gel" appearance. This permits it to be applied horizontally or vertically without falling off.
- ◆ It is **NOT** aggressive, so it can be applied on natural or artificial stone.
- ◆ With FIX-RESTAURA, all the mould and dirt in general on the coping can be removed.
- ◆ With FIX-RESTAURA, the appearance of the original tile can be recovered **WITHOUT DAMAGING** the surface of the tile **IN ANY WAY**.

CONSUMPTION:

Of FIX-RESTAURA: 0.2 l./m²
(depending on the degree of dirtiness and the number of applications)

WARNING

- ◆ Do not dilute the product.
- ◆ Do not use on aluminium, wood or paintwork which you do not wish to remove.
- ◆ Without taking all personal precautions: gloves, protective glasses etc.

INSTRUCTIONS FOR USE:

1

Ideal product for cleaning white coping tiles in swimming-pools or natural coping stones.

2

Apply with a brush and leave to act for between 15 minutes and 2 hours.

3

After 2 hours, rinse the coping with clean water and allow to dry.
